

Contribution ID: 28

Type: **Poster (without oral flash presentation)**

Functionalized Silica Nanoparticles: Design, Characterization, and Multimodal Imaging Applications

Field

Imaging

Primary author: GARIFO, Sarah (General, Organic and Biomedical Chemistry Unit, NMR and Molecular Imaging Laboratory, University of Mons)

Co-authors: Dr STANICKI, Dimitri (General, Organic and Biomedical Chemistry Unit, NMR and Molecular Imaging Laboratory, University of Mons); Dr BOUTRY, Sébastien (Center for Microscopy and Molecular Imaging (CMMI), Gosselies); Dr LARBANOIX, Lionel (Center for Microscopy and Molecular Imaging (CMMI), Gosselies); Prof. LAURENT, Sophie (General, Organic and Biomedical Chemistry Unit, NMR and Molecular Imaging Laboratory, University of Mons)

Presenter: GARIFO, Sarah (General, Organic and Biomedical Chemistry Unit, NMR and Molecular Imaging Laboratory, University of Mons)

Session Classification: Posters
